### Don't recognize this activity?

If you didn't recently receive an error while trying to access a Google service, like Gmail, from a non-Google application, someone may have your password.

**SECURE YOUR ACCOUNT**

### Are you the one who tried signing in?

Google will continue to block sign-in attempts from the app you're using because it has known security problems or is out of date. You can continue to use this app by [allowing access to less secure apps](#), but this may leave your account vulnerable.
